Badge and Insignia Finishes

## Deluxe Finishes\*

These incredibly durable finishes are engineered to never chip, flake, crack, discolor or tarnish by using a combination of thick electroplated layers, high temperature enamels, and cutting edge clear coat technology. Performance testing data is available upon request.

### Sil-Ray™

Heavy silver-tone electroplated layers combined with our extremely hard ClearShield™ protective clear-coat to produce a brilliant finish that will stand the test of time.

### Gol-Ray™

The most durable gold finish, combining heavy electroplated layers of 24K gold with our extremely hard ClearShield™ protective clear coat. The result is a gold finish that outshines the competition.

### Two-Tone

The best of both worlds. Gol-Ray™ and Sil-Ray™ combine to form a two-tone finish that is bright, consistent, and protected by our extremely durable ClearShield™ protective clear coat.

### Cote D'Or™

The ultimate fine gold finish with our thickest layer of 24K gold electroplate and our ultra-durable ClearShield™ protective clear coat. A presentation quality finish that is an excellent choice for awards, gifts, and display badges.

\*Deluxe finish prices include multi-color seal and hard enamel lettering.

## Standard Finishes

### Nickel Electroplate

The most economical silver-tone finish, a hard layer of nickel electroplate provides a high degree of durability without a high price, but may lose some luster with age.

### Rhodium Electroplate

A bright and brilliant silver-tone finish that will not tarnish - a great combination of shine and durability.

### Gold Electroplate

A pure 24K gold electroplated finish applied over a nickel base provides a gold finish that is tarnish-resistant, but may show some wear over time.
